# Graduate Student Survey On The Web!

- 🟢 Data reporting is easier—enter your data directly onto your computer screen.

- 🟢 Your S&E departments can enter data directly; you grant them access to the Web survey.

- 🟢 Data errors are reported to you instantly.

Everything's done on your computer screen. Totals are computed for you. Flags indicate when your survey is ready to submit to NSF.

## How It Works

On your computer, open your Web browser (such as Netscape Navigator or Microsoft Internet Explorer) and visit http://www.qrc.com/gssweb.
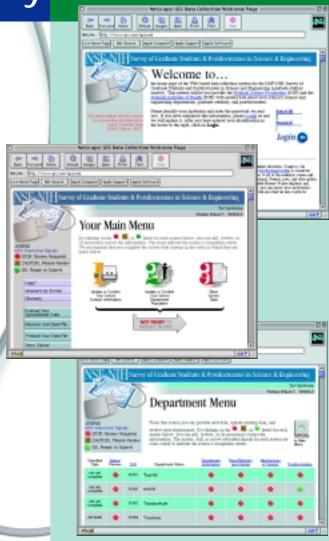

Log in by entering the School ID and password you received from NSF. (If you forget them, e-mail us at gss@qrc.com).

Then you can …

- 🔵 update your contact information,

- 🔵 verify NSF's list of your S&E departments, and

- 🔵 enter survey data.

## You Can Also

- 🟢 monitor departments' data entry progress,

- 🟢 print the finished survey on paper for your records,

- 🟢 work offline using spreadsheets and data files, and

- 🟢 get personalized help on your computer screen.

## More Features:

- 🔵 You can contact your departments, monitor their progress, and collect the data—by computer.

- 🔵 You can review and revise your departments' data at any time.

- 🔵 The data are reviewed for errors every time you click on "Save."

- 🔵 Data are saved to a central database, accessible to you at your convenience.

- 🔵 After you complete all survey questions, make the data available to NSF by the simple click of a button.
